Profile

I currently am working as a Front-End Developer at River Island, which is where my passion for code and development converge. I am a JavaScript enthusiast and enjoy learning and developing new ideas and concepts. Please feel free to view my portfolio codejourney.co.uk.

Skills

- HTML
- CSS
- SASS
- jQuery
- JavaScript
- Responsive design

Experience

Front-end Developer River Island January 2017 - present London, Shoreditch

Working with the development team to update and maintain the company website www.riverisland.com. Keeping code organised and accurate within a fast paced environment as updates are frequent. Ensuring pages are displayed correctly across multiple browsers and devices. Working within a content management system to access and organise code for specific pages.

My responsibilities include:

- creating responsive content
- custom JavaScript functionality
- scripts that solve routine problems
- working with a large code base
- knowledge of our CMS
- cross browser testing
- fixing bugs and improving functionality
- writing sass

Junior Front-end Developer One Base Media July 2014 - Jan 2017 Essex

Working for a small sized media company that were in the early stages of becoming a digital agency. I really appreciated my time here as i was exposed to numerous projects using a variety of code which enabled me to rapidly learn.

My responsibilities included:

- creating websites from scratch
- using Wordpress cms
- creating bespoke shops using wordpress
- working along side graphic designers
- responsive design
- cross browser testing
- meeting with clients to discuss site functionality

Advisor support team executive Cofunds Sep 2014 - Feb 2017 Chelmsford

Providing technical support to independent financial advisors when using the company website to manage funds.

Client advisor Aon Jan 2013 - Apr 2013 Wickford

Client advisor within the insurance industry. speaking to professionals to gather information on insurance.

Education

ITEC Learning Technologies 2014 - 2015

City and Guilds NVQ Level 3 higher apprenticeship: IT, Software, Web and Telecoms Professionals.

Having completed a qualification in City and Guilds NVQ Level 3 higher apprenticeship: IT, Software, Web and Telecoms Professionals. I have gained a strong understanding of the technologies used to create modern and functional websites.

Northampton University 2010 - 2012
sport and exercise science, Physical Sciences

Service college 2007 - 2009
Btec sport and exercise science, Sports Medicine Residency Program

Volunteer Experience

Camp America June 2012 - Aug 2012

Working on a summer camp in the United States of America Boston Massachusetts as a counsellor and tennis coach. Looking after groups of children from a range of ages and teaching them various skills through organised activities. Meeting people from all over the world and working along side each other to create a friendly atmosphere.
